MEMORANDUM

DATE: July 12, 1993

SUBJ: Environmental Benefits review outcome for Tri Star Sport Inc
CTD052544376

FROM: John Podgurski, Chief
CT Waste Regulation Section

TO: File

On June 28, 1993 Tri Star Sport Inc, underwent an environmental benefit review to complete determination of the facility's environmental priority. Based on this environmental benefit review the environmental priority of the facility is **MEDIUM**.

The NCAPS based environmental significance category of **MEDIUM** for this site was adopted as the environmental priority of the facility.

The NCAPS based environmental significance was adopted as the facility's environmental priority because the environmental benefit review found no factors to warrant assigning an overall environmental priority different than the environmental significance of the facility.

To my knowledge this is the first environmental benefit review of this project.

To Whom It May Concern:

I am writing to clarify for you a recent change in the United States Environmental Protection Agency (EPA) policy regarding the "Deferred" decision for Tri Star Sports, Inc. located at 475 Smith Street in Middletown, Connecticut (EPA Identification Number: CTD052544376).

The Tri Star Sports, Inc. site was deferred to the EPA Resource Conservation and Recovery Act (RCRA) Subtitle C program on July 2, 1992. A search of our files does not show that you, as an owner, operator or other interested party, were ever notified of that decision. The purpose of this letter is to provide you with formal notification of EPA's decision.

The deferral decision means that no further work is anticipated at this site by the federal Superfund Site Assessment program. Sites receive a "Deferred" decision when the federal Superfund Site Assessment program has completed it's assessment of a site, and has determined that no further steps will be taken to list a site on the National Priorities List (NPL or "Superfund List"), because the site is being addressed under RCRA Corrective Action authorities.

Sites deferred to the RCRA Subtitle C program are removed from the federal Superfund program's inventory of known and suspected hazardous waste disposal sites (the Comprehensive Environmental Response, Compensation and Liability Information System or CERCLIS database). They are archived as historical records to ensure that these investigations are not needlessly repeated in the future.

Deferred sites are also subject to state jurisdiction, and further actions may be required at this site by the state. You may wish to contact the state to verify the status of your property with regard to state authorities. The contact for the Connecticut Department of Environmental Protection is Doug Zimmerman, who may be reached at (203) 424-3800.

Recycled/Recyclable
Printed with Soy/Canola Ink on paper that
contains at least 75% recycled fiber

Finally, "Deferred" decisions may be changed based upon new information or other considerations which make a recommendation for listing appropriate at a later time. In such an instance, you will be notified and the site will be returned to the CERCLIS database with the "Deferred" decision removed.

For further information regarding the status of this site under the RCRA Subtitle C program, please contact Ernie Waterman, who may be reached at (617) 223-5511. If you have any questions regarding the removal of this site from the CERCLIS inventory, I may be reached at (617) 223-5524.

Sincerely,

Daria Dilaj
Site Assessment Manager
Waste Management Division
